ABU BAKER SHAD *(Full Stack Developer)*

Full Stack Developer with hands-on experience building **scalable, secure web applications** using **JavaScript, MERN stack, and Next.js**. Strong in **responsive UI development, RESTful APIs, authentication systems, and database-driven backends**, following clean architecture. Focused on **performance, maintainable code, and accessibility**, with growing experience in **AI-powered integrations and cloud-native technologies**.

EXPERIENCE

Web Development Intern (MERN Stack)
CodeAlpha --- Aug 2025 - Nov 2025

- Developed full-stack web applications using MongoDB, Express.js, React, and Node.js.
- Built REST APIs and integrated them with frontend interfaces.
- Implemented authentication flows and protected routes.
- Collaborated in team environment to improve application architecture and code quality.
- Optimized UI performance and ensured cross-browser compatibility.
- Gained hands-on experience with real-world project workflows and version control.
- Applied AI-assisted coding tools to speed up development and debugging.

SKILLS

Programming Languages: JavaScript (ES6+), TypeScript, HTML/CSS

Frontend: React.js, Next.js, Material UI, Chakra UI, Shadcn UI, Tailwind CSS

Backend: Node.js, Express.js, RESTful API, Drizzle, NextAuth.js v5,

Database: MongoDB, SQL, Firebase, Supabase

Tools & Platforms: VS Code, Cursor.ai, GitHub, Postman

Soft Skills: Detail-Oriented, Problem Solving, Debugging, Clean Code, Documentation, Team Collaboration

EDUCATION

Certified Cloud Applied Generative AI Engineer **2025 - Present**
PIAIC, UMT, Lahore

ADP Computer Science **2024 - 2026**
Riphah International College, Lahore

F.Sc. (Pre-Engineering) **2021 - 2023**
Unique Group of Institutes, Lahore

PROJECTS

Personal Portfolio:

- Developed a **feature-rich, full-stack portfolio using Next.js**, showcasing technical skills, key projects, and professional accomplishments through a polished, responsive, and user-focused interface.
- Implemented dynamic routing, reusable modular components, and SEO optimization for better visibility.
- Styled with Tailwind CSS and Shadcn/ui for consistent, scalable, and responsive UI across devices.
- Deployed on Vercel with performance, accessibility, and best-practice optimizations.
- Focused on clean code, modular architecture, and maintainable full-stack design.

Age Calculator & Music Player Website:

- Built interactive, responsive web applications demonstrating strong JavaScript fundamentals, DOM manipulation, and state management.
- Developed a Music Player with functional playback controls, real-time updates, and dynamic playlist handling.
- Created an Age Calculator with dynamic user input validation and real-time result calculation.
- Optimized performance, usability, and responsiveness using pure HTML, CSS, JavaScript, & React where applicable.

AI-Enhanced Learning & Web Applications:

- Developed projects integrating AI APIs for automation, data processing, and intelligent user assistance.
- Applied prompt engineering techniques to optimize AI interactions and outputs within web applications.
- Explored practical **AI integration in full-stack projects**, bridging frontend interfaces with intelligent backend services to enhance automation, interactivity, functionality, and overall user experience.
- Leveraged AI tools to enhance development efficiency, debugging, and feature automation, preparing for modern AI-driven web ecosystems.
