JOGESH KUMAR

Work permit: Pakistani **Nationality:** Pakistani **Date of birth:** 16/05/2002

Place of birth: Karachi, Pakistan **Gender:** Male

Phone number: (+92) 03292860665 **Email address:** jogeshk380@gmail.com

ABOUT ME

Electrical Engineering Fresh Graduated with practical internship experience at Hyderabad 132/11kv grid station HESCO. Proficient in MATLAB and Simulink for system modeling and simulation. My academic journey has fueled my passion for diverse areas within the field, including power systems, renewable energy, systems Protection, electronics, and EV charging station

WORK EXPERIENCE

Jogesh Kumar – Hyderabad, Pakistan

4 weeks internship

[25/08/2025 – 22/09/2025]

HYDERABAD ELECTRIC SUPPLY COMPANY (HESCO)
Problem solving skill: Developed Technical information about Grid station and operation, analyzed and understood the different
equipment operations and their safety rules.

Jogesh Kumar – Jamshoro, Pakistan

Group leader of finel year project FYP

[25/01/2025 – 26/12/2025]

Topic: Design and development of fast charging station for Electrical vehicle.
We design a circuit model of fast charging system using MATLAB Simulink software at Electrical engineering Department MUET
Jamshoro.
Assistant group leader of project
"As the group leader, I'm here for our update on the fast charging station for electrical vehicles. We've Successfully modeled and simulated the grid connected fast charging station.

EDUCATION AND TRAINING

Bachelor of Engineering

Mehran university of engineering and technology Jamshoro [2021 – 2025]

City: Jamshoro | **Country:** Pakistan | **Field(s) of study:** Electrical Engineering

LANGUAGE SKILLS

Mother tongue(s): Sindhi

Other language(s): English

europass

SKILLS

Microsoft Powerpoint / Microsoft Word / Multisim / Microsoft Excel / Matlab Simulink / Team-work oriented / Time management / Problem solving / Communication skills

PROJECTS

Design of a PWM-Based speed control system of DC motor

Smart home automation system using Arduino UNO and IoT (Object detector by using ultrasonic sensor)

Speed control of induction motor using variable frequency derive VFD

Performance analysis of synchronous motor under varying load condition

Development of a Digital logic circuit for a specific application

CERTIFICATIONS

[Unianthena]
Certificate of Exploring Electrical Engineering job simulation

Mode of learning: Online

[Unianthena]
Essential of data visualization using MS Excel

Mode of learning: Online

[Hyderabad Electric Supply Company (HESCO)]
Certificate of completed Internship at HESCO

Mode of learning: Work based

[Mehran university of Debating and Dramatic Society]
Certificate of Quize Competition

Mode of learning: Presential

[IEEE IMS MUET Students Branch Chapter]
Certificate of Participation PAK-SWISS TRAINING CENTER

Mode of learning: Work based

Matlab On Ramp

[Enso Circle Space]
Solar Ready for Mass Adoption Webinar

Mode of learning: Online

HONOURS AND AWARDS

[2022] Mehran university of engineering and technology jamshoro
Ehsaas Undergraduate scholarship project I have received full merit base Ehsaas Undergraduated program from MUET Jamshoro.
