SUMMARY

Dynamic and detail-oriented **Front-End Developer** with hands-on experience in developing scalable, high-performance web applications using **React.js**, **Next.js**, and modern UI libraries. Skilled in building responsive, accessible interfaces, integrating **RESTful APIs**, and optimizing front-end performance with advanced **JavaScript** techniques. Strong command of **Redux Toolkit (RTK)** and **RTK Query** for efficient state and data management. Proven ability to translate UI/UX designs into pixel-perfect -perfect implementations. Passionate about delivering clean, maintainable code and creating seamless user experiences. Seeking to contribute front-end expertise to innovative, user-focused projects.

EXPERIENCE

Front End Developer

Egeeks Global **November 2023 - Present, Rawalpindi**

- Developed scalable web applications using React.js and Next.js .
- Managed global and API state using Redux Toolkit and RTK Query.
- Utilized Context API for localized state management.
- Created responsive, accessible UIs with Tailwind CSS and Material UI (MUI).
- Integrated RESTful APIs with robust error handling and async logic.
- Optimized performance via code-splitting, lazy loading, and dynamic routing.
- Implemented CI/CD pipelines using GitHub Actions for automated testing and deployment.
- Collaborated with cross-functional teams to deliver pixel-perfect, UX-focused designs.
- Enhanced UI performance and responsiveness using advanced JavaScript techniques.
- Streamlined complex state logic by integrating advanced memoization and selector patterns, substantially reducing unnecessary rerenders and boosting application scalability at Egeeks Global.

Front End Developer

Repla Technologies Pvt Ltd **May 2023 - October 2023, Rawalpindi**

- At REPLA Technologies, I developed responsive, mobile-first interfaces using HTML, CSS, and Bootstrap. I translated Figma/Adobe XD designs into pixel-perfect pages, wrote interactive JavaScript features, and collaborated with designers and backend teams to ensure accessible, high-performance web experiences.
- Translated complex Figma designs into interactive and responsive user interfaces, ensuring seamless functionality across multiple devices and platforms while collaborating with cross-functional teams to enhance the overall user experience.
- Enhanced reusable component libraries by integrating modern JavaScript frameworks, driving consistency across projects and facilitating faster development cycles.
