PROFILE

I am an experienced Frontend Developer specializing in advanced web technologies and frameworks. My expertise lies in building scalable web applications utilizing tools like React.js, Node.js, and MongoDB. I have a strong focus on performance, accessibility, and user experience, enabling me to deliver exceptional solutions. I thrive in collaborative environments and seek to contribute to innovative projects

PROFESSIONAL EXPERIENCE

IdeaX

Software Engineer

JUN 2023 - PRESENT LAHORE

A company primarily focused on creating innovative software solutions

- Developed modules of the application in React.js to meet business requirements
- Implemented a mobile-first approach to existing website using Bootstrap
- Developed reusable and scalable UI components using Material-UI and SASS
