# Muhammad Saad Mehmood

+92 3201707420 | mehmoodsaad042@gmail.com
https://www.linkedin.com/in/msaadmehmood/ | https://github.com/saad7420
Islamabad, Pakistan

## PROFESSIONAL SUMMARY

*Motivated and detail-oriented **Software Developer** with a strong foundation in **Front-End Development**, **React.js**, and modern JavaScript frameworks. Experienced in building scalable, high-performance web applications with intuitive and interactive user interfaces. Backed by a solid background in **Artificial Intelligence**, **Machine Learning**, and **Deep Learning**, with hands-on experience in automation and intelligent system integration. Adept at problem-solving, data processing, and deploying AI-powered solutions using **TensorFlow** and **PyTorch**. Passionate about creating efficient, impactful digital experiences and eager to contribute technical expertise to the **UI and AI-driven innovation team at Dive Seeks**.*

## EDUCATION

- **COMSATS University Islamabad** **2023-2027**
  *Bachelors in Artificial Intelligence* Islamabad, Pakistan

## TECHNICAL SKILLS

- **AI & Computer Vision:** Deep Learning (TensorFlow, PyTorch), Computer Vision (OpenCV, Object Detection, Image Processing), Deepfake Analysis (Audio/Video), Voice Detection, Classification Models.
- **Web & Mobile Development:** React.js, JavaScript (ES6+), HTML5, CSS3, Flutter (Mobile Apps), WordPress, Shopify, Wix.
- **Automation & Data:** n8n Workflow Automation, Data Processing, AI Integration, Web Scraping.
- **Languages:** Python, C/C++, Java, SQL.
- **Backend & Databases:** RESTful APIs, MongoDB, SQL Databases.
- **Design & Tools:** Figma, Adobe Photoshop, Illustrator, Git & GitHub, Docker.

## EXPERIENCE/PROJECTS

- Developed an **Image Colorization** in Computer Vision using open2CV, Yolov8n, U-net architecture.
- Developed a **Traffic Signs Detection** using, open2CV, Yolov8n.
- Developed an **Autonomous Store**, to watch the movement of customers, classify the product he picks and add the picked product in Virtual Cart using Yolov8n
- Developed a **Deep Fake Audio Detector** for the detection of Ai generated Audio using Audio-Spectrogram and then pass through Vi-Transformer to give Predicted Result and deploy in Gradio.
- Developed the **Hostel Management System** in MASAM (Assembly Language)
- Developed a comprehensive website for the CAIS-COMSATS AI Society using the MERN stack (MongoDB, Express, React, Node.js).
- Focused on creating a responsive and user-friendly interface to serve the student community.

**Commercial Web Development | *WordPress & CMS Developer***

- Company Portfolio (codelixi.com): Designed and developed a professional portfolio website to showcase company services and projects.
- Blog & News Platform (page56.com): Built a content-rich blog and news website, ensuring intuitive navigation and layout.
- Game-Blog (magshadowwar.com): Developed a niche gaming blog website focused on user engagement.

**University Management System | *Java Developer***

- Created a robust management system featuring separate portals for teachers and students.
- Implemented full CRUD (Create, Read, Update, Delete) functionality to manage academic data efficiently.

## ADDITIONAL PROGRAMMING EXPERIENCE

**Game Logic & Algorithms**

- Match 4 Game: Developed a strategy game featuring Monte Carlo Tree Search (MCTS) and Min-Max Alpha-Beta pruning, demonstrating complex logic implementation and algorithm efficiency.
- Network Simulation: Implemented Dijkstra's and Prim's algorithms in C++ to simulate network paths and create Minimum Spanning Trees (MST).

**Machine Learning**

- Built regression and classification models using Python libraries (Scikit-learn, Pandas) to predict housing prices and analyze customer churn.

## CURRICULAR ACTIVITIES

***Career Expo Organizer (FA'23)-ILC Society***

*Successfully organized the Career Expo event, managing logistics and coordinating with industry representatives to connect students with career opportunities.*

***Event Manager, CAIS – COMSATS AI Society***

*Led the planning and execution of the Model Training Competition, promoting practical AI skills and fostering community engagement within society.*

***Active Member, COMSATS AI Society***

*Participated in workshops, seminars, and competitions focused on AI and machine learning, enhancing technical knowledge and teamwork abilities.*

## *Additional Information*

*Languages: English, Urdu, Punjabi*
*Interests: Cricket, Volleyball, Online Gaming*
