GitHub: https://github.com/Bobbyprogrammer?tab=repositories
Living Address: Taunsa Shareef ,Dera Ghazi Khan

Technical Skills

Full Stack Developer (MERN) | Docker, CI/CD & VPS

Frontend: React.js, Next.js, Tailwind CSS, ShadCN UI
Backend: Node.js, Express.js
Database: MYSQL,MongoDB,Prisma
DevOps & Deployment: Docker, CI/CD Pipelines, VPS Deployment, Vercel, Render, GitHub Actions
Other Skills: Git & GitHub, RESTful API Development & Integration,Socket.IO JWT Authentication & Authorization, Responsive Web Design,

Experience/Projects

Codebotx
Full Stack Developer **| Dera Ghazi Khan**
July 2024 – December 2025

- Designed, developed, and maintained scalable full-stack web applications using the **MERN stack and Next.js**.
- Built dynamic, responsive, and high-performance user interfaces using **React.js and modern frontend technologies**.
- Developed secure and optimized **RESTful APIs** with Node.js and Express.js, ensuring efficient data handling and system reliability.
- Collaborated with cross-functional teams (designers, backend developers, and stakeholders) to deliver **production-ready features on schedule**.
- Improved application performance by optimizing database queries, API response times, and frontend rendering strategies.
- Participated in deployment processes and ensured smooth transitions from development to production environments.

Content Creator (YouTube Channel – Full Stack Development) **Feburary 2025 – Ongoing**

- Running a **YouTube channel** focused on teaching **MERN stack and Next.js projects**, reaching developers with practical, real-world tutorials.
- Produced full project-based tutorials (8–12 hours each), covering both frontend and backend development.
- Demonstrated ability to explain complex concepts in a simple and engaging way.

Full Stack Developer | FX Solutions (Remote) **May 2025 – Present**

- Developing and maintaining scalable full-stack web applications using **MERN Stack and Next.js**.
- Designing responsive, high-performance user interfaces with **React.js and Tailwind CSS**.
- Building secure backend services and RESTful APIs using **Node.js and Express.js**.
- Implementing authentication & authorization systems using **JWT and role-based access control**.
- Managing database architecture with **MongoDB, MySQL, and Prisma ORM**.
- Deploying applications using **Docker, VPS, Vercel, and Render** with proper production configuration.
- Setting up and maintaining **CI/CD pipelines (GitHub Actions)** for automated testing and deployment.
- Handling complete project lifecycle from requirement analysis to deployment and maintenance.
- Collaborating with clients to deliver optimized, scalable, and production-ready solutions.

Personal Projects

- **Personal Projects (Published on YouTube)**
- Built a **production-ready Job Portal** with authentication (JWT), role-based access (admin, recruiter, user), and real-time job application tracking.
- Developed a **hotel booking system** with room reservation, user booking history, and owner hotel management.
- Developed a complete **food ordering platform** with cart, wishlist, checkout, and order management.

Education

Ghazi University of Dera Ghazi khan **September 2020 – June 2024**

Bachelor of Science in Information Technology
