SKILLS

- Project Management
- Public Relations
- Teamwork
- Problem Solution
- Time Management
- Leadership
- Effective Communication
- Critical Thinking

LANGUAGES

- English (Fluent)
- Urdu (Fluent)

CERTIFICATES

Gemini Certified Student

Transformers by Google Cloud

ICPC competitor

IEEE Runner Up

PROFILE

A highly motivated and results-driven computer scientist. Known for excellent problem-solving abilities, effective communication skills, and a proven track record of delivering high-quality results.

WORK EXPERIENCE

Internships

- **Intern – Systems Limited (MEA Cloud App Dev & Maintenance)**

Worked on cloud application development and maintenance, gaining hands-on experience in enterprise systems and deployment practices.

- **Intern – CodeAlpha (Android Development)**

Developed native Android applications using Java/Kotlin.

AI/ML Enginer

2025 - Present

- Built Image Captioning model (CNN + LSTM/Transformer) for automated image descriptions.
- Developed YOLO-based Traffic Monitoring and Real-Time Weapon Detection System using YOLOv8, OpenCV, and PyTorch.
- Focused on real-time computer vision, model optimization, and deployable AI solutions.

Flutter Developer

2025 - PRESENT

- Developed multiple cross-platform apps including Chat Application, Health & Fitness App, Diet Plan App, and Expense Tracker.
- Integrated REST APIs, real-time features, and state management for scalable, high-performance applications.
- Implemented clean architecture, Firebase integration, and optimized UI/UX for smooth user experience and maintainable codebase.

Android Developer

2024 - 2025

- Built native Android applications using Java/Kotlin with strong understanding of OOP and MVVM architecture.
- Integrated APIs, SQLite/Firebase databases, and implemented responsive UI using XML and Material Design principles.

EDUCATION

Bachelors in Computer Science 2022 - 2026

NUCES FAST University

Intermediate 2019 - 2021

Punjab College,Multan
