Professional Summary

Frontend Developer with **2+ years of experience** building scalable and responsive web applications using React, Next.js, JavaScript, and TypeScript. Experienced in developing complex user flows including authentication systems, role-based dashboards, scheduling systems, real-time communication, and API integrations.
Skilled at transforming UI/UX designs into high-quality interactive interfaces while maintaining clean and maintainable code. Experienced working on education platforms, real-time applications, and dashboard systems.

Professional Experience

Frontend Developer — Techfy Aug 2025 – present
Present | Remote

Developing modern web applications using React and Next.js while collaborating with backend developers and product teams.

Key Contributions:

- Built scalable UI components using Tailwind CSS, Material UI, Bootstrap, and Shadcn UI
- Implemented complex authentication flows including login, signup, password reset, Google authentication, and OTP verification
- Integrated REST APIs and handled dynamic data rendering with proper loading and error states
- Developed role-based dashboards for multiple user types including Teacher, Parent, and Student
- Implemented real-time functionality using WebSockets
- Integrated video communication and screen sharing features using the Agora SDK
- Built scheduling systems with timezone support and weekly availability management
- Implemented impersonation login allowing parents to securely access child accounts without password re-entry
- Developed responsive layouts optimized for different screen sizes and devices

Technical Skills

Frontend Technologies ● ● ● ● ○
- HTML5
- CSS3
- JavaScript
- TypeScript

UI Libraries ● ● ● ● ○
- Tailwind CSS
- Bootstrap
- Material UI (MUI)
- Shadcn UI

API Integration ● ● ● ● ○
- REST APIs
- Axios / Fetch
- Async/Await
- Error Handling

Utilities ● ● ● ○ ○
- Moment.js
- date-fns
- date-fns-tz

Frameworks ● ● ● ● ○
- React.js
- Next.js

Authentication Systems ● ● ● ● ○
- Email / Password Authentication
- Google Login / Signup
- OTP Verification
- Password Reset
- Role-Based Access Control
- Impersonation Login

Real-Time Technologies ● ● ● ○ ○
- WebSockets
- Agora Real-Time Communication

Tools ● ● ● ● ○
- Git
- GitHub
- VS Code

Major Projects

GIF – Education Platform Aug 2025 – Mar 2026

React, Tailwind, WebSockets, Agora

Developed a multi-role education platform with three user types: **Teacher, Parent, and Student**.

Key Features:
- Teacher onboarding with multi-step registration including personal details, certificates, ID verification, and introduction videos
- Weekly availability scheduling system for teachers
- Parent dashboard to manage children profiles and book lessons
- AI-generated child learning reports and lesson recommendations
- Real-time online classes with video call, chat, screen sharing, and whiteboard
- Lesson scheduling with timezone support
- Recording and history of completed lessons
- Parent impersonation feature allowing login as child without password

IQ Combat – Quiz Game Platform Feb 2026 – Present

React, WebSockets

Developed frontend for an interactive quiz platform.

Key Features:
- Authentication system with signup, login, verification, and password reset
- Freeplay mode with real-time question answering using WebSockets
- Category-based ranking and leaderboard system

- Profile and settings management
- Admin panel for managing games, tournaments, questions, and users

PropertyHub – Real Estate Platform Nov 2025 – Mar 2026

Next.js (Frontend) | API Integration

Developed the **frontend interface** of a real estate web application with **Admin and User dashboards**, integrating APIs provided by the backend team.

Admin Dashboard Features

- Built UI for creating, editing, and deleting property listings
- Developed blog management interface (create, update, delete posts)
- Implemented property management dashboard with dynamic data from APIs

User Dashboard Features

- Developed user registration and profile management interfaces
- Implemented property search and filtering based on district and state
- Built membership subscription UI with plan selection
- Integrated PayPal payment flow for subscription purchases
- Implemented access control UI based on active subscription plans

Get Together Clone UI Feb 2025 – Jun 2025

React, MUI - Personal Project

Built a responsive messaging UI using React and MUI with sidebar navigation, chat list, and dynamic message loading.

Education

FSC Apr 2022 – Oct 2024

Aspire Group of College Zahir Peer, Pakistan

Focused on computer science and analytical problem solving.

Languages

English — Conversational, reading and writing proficiency

Urdu — Native speaker

Interests

Frontend UI Development

Enjoy building creative, responsive, and pixel-perfect interfaces

Cricket

Love playing cricket with friends; enjoy teamwork and strategy

Video Games

Enjoy competitive and strategy-based games like PUBG, GTA V, or Cricket
