MUHAMMAD AHMAD

📧 **ahmadkhanlodhi4@gmail.com | +92 309 5434107 |** 🌐 **github.com/ahmad-lodhi07**

CERTIFICATIONS

- 🏅 **Oracle Certified Generative AI Professional — *Oracle University, 2025***

SKILLS

- **Languages: C/C++, Java, Python, HTML, CSS, JavaScript, SQL**
- **Technologies & Frameworks: React, Next.js, Node.js, Express, FastAPI, React-Native, Android**
- **Databases & DevOps: MongoDB, PostgreSQL, SQL Server, Firebase, Docker, Apache, Git, Bash Scripting**
- **AI & Automation: Generative AI, LangChain, LangGraph, AI Agents & Bots (RAG), LLM-Based Applications, Automation Systems, AI Integration Pipelines**

EXPERIENCE

Software Engineer

- **Developed AI-powered systems, automation workflows, and full-stack web tools integrating LLMs and data-driven intelligence.**
- **Created AI Software Updater, AI Video Analyzer, and Chatbot / LLM-based applications using LangChain, LangGraph, and custom RAG setups.**
- **Engineered Web Scraping & Data Automation systems with Python, FastAPI, and data export utilities.**
- **Built scalable web platforms using MERN, Next.js, Node.js, and Express with real-time and API-based integrations.**
- **Delivered automation and intelligent agent solutions improving efficiency and scalability for clients.**

PROJECTS

- **AI Software Updater (2025): Autonomous software update management using AI-driven logic and API orchestration.**
- **AI Video Analyzer (2025): Intelligent video analysis and content extraction using advanced AI models.**
- **Chatbot & LLM-Based Applications (2025): Conversational AI systems integrating LangChain, LangGraph, and RAG pipelines.**
- **Web Scraper & Data Automation (2024): Python automation tool for extracting, structuring, and exporting large-scale data.**
- **Hook Analyzer SaaS (2025): MERN-based SaaS platform for YouTube hook analysis and performance insights.**

EDUCATION

Bachelor of Software Engineering
***COMSATS Institute of Information and Technology* — Feb 2023**
CGPA: 3.35 / 4.0

Relevant Coursework: Object-Oriented Programming, Project Management, Software Quality Engineering, Databases, Data Structures & Algorithms, Operating Systems, Computer Networks
