PROFILE

Dynamic Frontend Developer with 2.5+ years of experience in building responsive, scalable, and user-centric web applications. Currently working remotely, specializing in the React ecosystem with a strong focus on building reusable components, state management, and seamless API integrations. Expert in translating modern UI designs into clean, maintainable, and high-performance code. Committed to delivering intuitive digital experiences through continuous learning and cross-functional collaboration.

EXPERIENCE

XTECSOFT PVT LTD — **JAN 2023 JUNE 2025**

- React Developer at Xtecsoft with experience in creating intuitive and userfriendly interfaces.
- Successfully developed and deployed web applications meeting client requirements.
- Collaborated effectively with cross-functional teams for smooth project execution.
- Strong attention to detail and problem-solving mindset for analyzing and resolving complex issues.
- Continuously staying updated with emerging trends to contribute to Xtecsoft's growth as a skilled React Developer.

MERN STACK DEVELOPER (REMOTE) — **NOV 2025- PRESENT**

- Developing full-stack applications using MongoDB, Express.js, React, and Node.js.
- Managing database schemas and optimizing server-side logic for high availability and performance.
- Building responsive, mobile-first user interfaces with modern CSS frameworks.
