ABOUT ME

I am a Software Engineering student at Virtual University of Pakistan, currently in my 1st semester, with a strong interest in frontend development. I enjoy creating responsive and user-friendly web interfaces and continuously learning modern web technologies. I am motivated to improve my skills, work on real-world projects, and grow as a professional frontend developer in the tech industry.

EXPERIENCE

Web Designing course

SMIT 4-month

Completed a 4-month Web Designing course from Saylani Mass IT Training, where I learned the fundamentals of web development including HTML, CSS, responsive design, and basic JavaScript. Gained practical experience by creating simple and responsive web pages.

Full Stack Web Development

Corvit Systems 3-month

Completed a 3-month Full Stack Web Development course from Corvit Systems. Learned the fundamentals of both frontend and backend development, including HTML, CSS, JavaScript, and basic web development concepts like react js. Gained hands-on experience by building simple web applications and understanding the complete web development workflow.

Modern Web and App Development

SMIT 2026 – Present

Currently enrolled in the Modern Web and App Development program at Saylani Mass IT Training (1-Year Program). Learning modern web technologies including HTML, CSS, TypeScript, and frontend development concepts while working on practical projects to build responsive and user-friendly web applications.
