ABDUL QAYYUM

A dedicated software engineering student skilled in web development, AI integration, and building full-stack projects with modern tools and technologies.

qayyumbajwa.tech@gmail.com | +923241780643 | ABH RA Bazar, Lahore Cantt | linkedin.com/in/abdulqayyum-tech

EDUCATION

Lahore Garrison University — **Lahore, Pakistan**

B.S. in Software Engineering — *Expected Graduation, July 2026*

- **CGPA:** 3.57/4.00
- **Significant Coursework:** Web Engineering, Software Construction & Development, Software Quality Engineering, Computer Networks, Database Systems, Software Design & Architecture, Operating Systems, Data Structures & Algorithms, Object-Oriented Programming, Entrepreneurship & Leadership, Professional Practices, Web Development , Machine Learning , Project Management, Software Re-Engineering

SKILLS

Programming: React, Java, XML, JS, HTML/CSS, Python, MS SQL Server, C++
Tools: Git, Github, Android Studio, VS Code, Jira, Slack, Trello, MS Office
Operating Systems: Linux (Ubuntu), Windows

PROJECTS

Car Renting System |2nd Semester Project | C++

- Designed and developed a rental management portal using OOP principles.
- Implemented inheritance, encapsulation, and structured classes to manage cars, drivers, and bookings.

Student Portal System | 3rd Semester Project | DSA(C++)

- Created a student record management system supporting efficient data storage and retrieval.
- Utilized arrays, linked lists, and binary search algorithms to allow fast access and updates

Blood Bank Portal |6th Semester Project | HTML ,CSS , JAVASCRIPT , PHP , SQL

- Developed ablood donation and management website with user authentication, donor registration etc modules.
- Built front-end pages and back-end logic with PHP and SQL for real-time data handling.

FutureMentor AI |Final Year Project | React.js, Tailwind CSS, JavaScript, Python, LangChain, MongoDB, APIs, Cloud Hosting

- Developed an AI-based academic guidance platform integrating university, scholarship, and career APIs for real-time suggestions.
- Built an intelligent chatbot using LangChain and AI APIs for student advising and query handling.
- Created a scalable full-stack system with React.js, MongoDB, and cloud hosting for smooth, high-performance operations.

EXPERIENCE AND ACTIVITIES

WordPress Developer — **Bitnbyte**

23 June,26 - 13 Oct, 26

- Developed responsive, user-friendly WordPress websites tailored to client requirements.
- Customized WordPress themes, integrated plugins, and optimized website performance for speed and SEO

Eevent Management Member | ESSE Society — **Lahore Garission University**

5th Sem - Continue

- Assisted in planning and organizing events, ensuring smooth execution and timely task completion.
- Managed logistics, volunteer teams, and on-ground activities to enhance event quality and participant experience

AWARDS AND CERTIFICATIONS

- Placement on the **Dean's List of Honors** for the 5th and 6th Semesters.
- Certification in AI(ML/DL) from Techphantom technologies.
