# Arbab Ali Anjum

**AI/ML Engineer (Computer Vision + Generative AI)**
**Contact-1: +92 3167428895 | Contact-2: +92 3207571736**
**Email: arbabalianjum786@gmail.com**

## EDUCATION

**BS information technology**
University of Okara
GPA: 3.20/4.0
Relevant Coursework: OOP, Software Engineering; Operating Systems; DSA; Artificial Intelligence
Sep 2020 - Sep 2024

## Certification

**Machine Learning Specialization**
**Microsoft** (Fundament of AI Azure 900)
Master fundamental AI concepts and develop practical machine learning skills in the beginner-friendly,

★ Engage in hands-on exploration and experimentation with AI technologies, contributing to the development and enhancement of machine learning models, algorithms, and applications under the guidance of experienced mentors.

## ADDITIONAL

**Programming Languages:** Python (NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn, TensorFlow, ) C Sharp, C++, HTML/CSS

Development Framework: Fast API, LangGraph, LangChain, tensor flow etc.

**Development Tools:** google colab, VS community, VSCode.

## Projects

**ML/AI Engineer (Generative AI+ Computer Vision) 0.6 working experience** **Continue**

### Projects

Generative AI (RAG)

★ Created a **RAG System** with hugging face LLM using FAISS embeddings

Completed End to End Generative AI " RAG System " multiple data source

- Implemented **PDF** Generated answer
- Integrate **Llama 3.1** in it for human like conversational response
- Integrate **Wikipedia** to get information
- Integrate **Arxiv** to get information

Completed End to End Generative AI " RAG System " for School Exams Management System

- Implemented MCQs Generated system from Given Pdf Book
- Integrate Llama 3.1 in it for human like conversational response
- User just write topic name and get MCQs related to that topic with Correct Answer

Computer Vision Product “ Employee Uniform Detection From Live CCTV Cameras ”

Completed Fast API App for this product and Deployed it.
Use Fine-Tuned Yolov8 Model for
Real-Time Object Detection

Machine learning projects (linear regression, multiple linear regression, KNN, decision tree, data pre-processin)
